

Dejero

Cloud Server

Stream video to web and mobile devices

The Cloud Server simplifies the complex task of publishing live or recorded video streams in multiple formats to the web and mobile devices.

SIMPLICITY

EASY TO USE

Dejero Cloud Server is easy to setup and configure using our cloud-based management system. With a few clicks you're ready to publish your live video.

REACH

REACH MORE PEOPLE

Reach new audiences and increase viewer engagement by broadcasting high quality video to multiple video platforms and content distribution networks.

SCALABILITY

GROW WITH TIME

Leveraging cloud infrastructure allows you to meet your needs today with room to grow for tomorrow.

VERSATILITY

PLAN OPTIONS

Whether you need it monthly, annually, or for a one-time special event, there are different plans to suit your needs.

CONSIDER THE POSSIBILITIES

Here are just a few of the online streaming possibilities:

PRO SPORTS

Greatly enrich the fan experience with video content such as press conferences, training camps, interviews with coaching staff and players, bus rides, practices, and game-day fan interaction.

AMATEUR SPORTS

Stream college, high-school, local, and amateur sporting events to the web and mobile devices.

LIVE EVENTS

Broadcast live events, from keynote speeches, press conferences, and music festivals to awards shows, dance competitions, and outdoor performances.

LOCAL GOVERNMENT

Stream elections, community events, council meetings, speeches, and other public interest matters.

EDUCATION

Stream campus events, guest lectures, and sports to students, families, and alumni.

ENTERPRISE

From all-hands meetings and keynote speeches to product launch events and executive meetings, businesses can stream live content to their globally dispersed audiences.

KEY FEATURES

RTMP

Simultaneously output three RTMP streams at different preset video resolutions and audio bitrates from a single live feed or Store & Forward file

EASY INTEGRATION

Easily integrates with your broadcast and online streaming workflow

CDN COMPATIBLE

Compatible with leading CDNs

CLOUD STORAGE

Includes cloud storage location for recorded clips and other files, retrievable via Secure FTP

PRICING FLEXIBILITY

Monthly, annual, and large-scale special event pricing available

HD STREAMING TO MULTIPLE PLATFORMS

Stream high quality video content to Facebook Live, YouTube Live, and other online video platforms

DEJERO CONTROL

Geolocate field units, preview feeds, route content, and monitor usage and performance using our cloud-based management system
